

LAWRENCE A

Bachelore of Computer science Student, Active for Web development

PROFILE

Python Developer with a strong foundation in software development and problem-solving. Skilled in writing clean, efficient code and building practical applications. Passionate about learning and creating real-world solutions, seeking an opportunity to grow in a professional development environment.

EDUCATION

St.LasalleHr.Sec.School, Tuticorin 2021-2023

I completed HSC in St.Lasalle Hr. Sec.School belonging the group of Computer Science at Tuticorin

St.Joseph's Arts and Science college, Tiruchirapalli 2023-2026

I am currently doing my UG in St. Joseph's college , Tiruchirapalli

PROJECTS

Hopzzip Hospital Management System

- Technologies Used: Python, Django, HTML, CSS, JavaScript, SQLite
- Developed a full-stack hospital management system for managing patient and pharmacy data.
- Implemented inventory management system for medicines with real-time stock tracking.
- Designed interactive UI with color-based stock indicators for better visualization.
- Integrated WhatsApp notification system using Twilio API to automate low stock alerts.
- Improved system efficiency by reducing manual monitoring of medicine inventory.

Ammu App

- Technologies Used: Dart, Android Studio
- Developed a mobile application focused on women safety features.
- Designed user-friendly interface for quick access to emergency functionalities.
- Implemented real-time alert system for emergency situations.
- Improved usability by creating simple navigation and responsive design.

Weather Map

- Technologies Used: Python, Pandas, Matplotlib
- Developed a data visualization project to analyze real-time weather data.
- Processed and analyzed datasets including temperature, humidity, and pressure.
- Created graphical visualizations using Matplotlib for better data understanding.
- Improved data analysis skills by handling and interpreting large datasets.

INTERNSHIP

- I completed a 4-week online internship at **CODTECH IT SOLUTION**, where I worked with Python, Pandas, and Matplotlib. During this internship, I built a Weather Map project that collected real-time weather data, processed it, and visualized it through graphs. This internship improved my skills in data analysis and basic data visualization.
- I Did my Internship in **GRIT DIGITECH PVT LTD**, intern as Mobile app developer role. I have experienced with team work,time management,
- Depugging and communication in the one month internship program.

SKILLS

- Python
- Html,Css
- Django
- Numpy,Pandas
- Excel
- Debugging
- Creativity

TECHNICAL SKILL

- Type writing
- FullStack development
- Web design

SOFT SKILL

- Communication
- Problem solving
- Leadership

CERTIFICATIONS

- AI for everyone AI
- tools IT for buisness
- Python programming
- Prompt engineering
